BUILDING LIFELONG RELATIONSHIPS WITH OUR CLIENTS

We are a client-focused trust and investment management business providing financial advice and personalised financial solutions to clients planning for, or already in, their retirement years as well as to their families.

Personal Trust started as a dream. A dream to create a Trust company that was small enough to be able to put its clients first and had the founding principles of:

Trust
Personal dedication
Professional commitment

Today, that dream lives on and the success of Personal Trust can be attributed to the unique philosophy on which the dream was built – to provide clients and their families with personal attention and tailor-made portfolios and to treat each and every client as a top priority.

We have grown significantly over the years and now manage in excess of R17 billion worth of assets for our clients. Despite our growth, we remain privately owned by Directors and Staff and are committed to our original vision of providing clients with personal and professional guidance on all aspects of their financial affairs.
